

## Solar System Diagram

Follow the directions below to color, draw and label the picture of the solar system.

1. Color the **Sun** *yellow* and label it Sun.

Visit: <http://www.universetoday.com/72305/order-of-the-planets-from-the-sun/>

2. Color the **Terrestrial planets** *red* and label each planet.

Visit: <http://www.space.com/17028-terrestrial-planets.html>

3. Color the **Jovian planets** *purple* and label each planet.

Visit: <http://www.universetoday.com/33061/jovian-planets/>

4. Color the **Dwarf planets** *blue* and label each planet.

Visit: <https://solarsystem.nasa.gov/planets/profile.cfm?Object=Dwarf&Display=Sats>

5. Color the asteroids in the **Asteroid Belt** *black* and label it the Asteroid Belt.

Visit: <http://www.space.com/16105-asteroid-belt.html>

6. Color the comets and asteroids in the **Kuiper Belt** *brown* and label the Kuiper Belt.

Visit: <http://www.space.com/16144-kuiper-belt-objects.html>

7. Draw the moon orbiting the **Earth** and label it.

<http://www.universetoday.com/72305/order-of-the-planets-from-the-sun/>

8. Draw the **Great Red Spot** on Jupiter *red*.

9. Draw the **Rings** around Saturn *orange*.

10. Draw the **Great Dark Spot** on Neptune *blue*.
